Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been received.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by WARSHAWSKY (US 4,726,552).
3. Regarding Claims 1 and 3, WARSHAWSKY provides a floor (Column 2, Line 64) or desk (Column 3, Line 8) lamp having a stand (20, Fig.1) lamp pole (18/90/80) vertically disposed on said lamp stand and extending upwards (Fig. 1); and at least one lamp unit (12/14) disposed on the outer portion of said lamp pole via a wrapping tube (60/62) disposed therewith, characterized in that, said lamp pole being disposed with at least one horizontal groove (144/146), a fastening member (212/210) being fastened in said wrapping tube of said lamp unit so as to fixate said lamp unit on said lamp stand, said fastening member extending into said corresponding groove on said lamp pole so as to enable said lamp unit to rotate horizontally with respect to the displacement of said fastening member in said groove (Column 4, Lines 37-54).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over WARSHAWSKY (US 4,726,552).
5. WARSHAWSKY discloses the claimed invention as cited above and further discloses the use of a hex screw for the purpose of eliminating an obtrusive screw head. It would have been obvious to one of ordinary skill in the art at the time of invention to utilize a head screw in order to eliminate an obtrusive screw head.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

6. WARSHAWSKY (US 4,484,255) provides a lamp swing arm support for attaching a light unit to a pole via a screw.
7. YEH (US 5,615,946) provides a tree lamp with a light unit that engages the outer surface of a pole via a tubular wrapping member and is secured thereto via a screw.
